"As much as art in all of its facets multiplies and evolves, I often come back to the artists of the New York School. The bold and confident work of Robert Motherwell is a personal favorite."

"I like to layer understated shades of white to create an airy and bright room canvas. Dark accents in a soft and subtle black add structure and definition to the space."

SHOP THE LOOK

"Lighting designed by Serge Mouille has a unique sculptural elegance and strong presence within a space. It's an icon of modern design that one can hardly go wrong with."

"I like furniture with classic lines and a contemporary twist. This Cassina table is a great choice when one is looking for a round piece with a bit of an additional edge."

"For a room inspired by Motherwell, I chose a rug from nanimarquina based on the artwork of Eduard Chillida, one of the greatest modernist sculptors."

"This lounge chair by Blu Dot has a timeless, classic look with its thick sumptuous saddle leather wrapped around the exposed slender wood frame. Comfortable and beautiful!"

"I like mirrors with a clean, simple aesthetic. Placed in just the right spot, they reflect the surroundings and create a dramatic effect."

"These vases from Design Within Reach add a touch of detail without distracting from the overall composition."

"Slender, subtle and sophisticated—this Blu Dot console is the perfect piece for a foyer."

"Designed in 1950 by Greta Grossman, the Cobra sconce from Design Within Reach is a great fit to add indirect wall lighting corresponding to the Mouille chandelier."
